SER 215 – Software Enterprise I

Assignment 1

(Simple Java program)

Monetary Units – Compute Change Program

- This program lets the user enter the amount in decimal representing dollars and cents.

    o Example: 12.56

- It outputs a report listing the monetary equivalent in single dollars, quarters, dimes, nickels, and pennies.

    o Example: 12 dollars, 2 quarters, 0 dimes, 1 nickel, 1 penny

- The program should report maximum number of dollars, then the maximum number of quarters, and so on, in this order.

Deliverables:

- ComputeChange.java

- (Optional) Comments or Readme file
